

Are We Ready to have our Li estyles Changed?

To: The Residents of Elbert County

As you know the oil and gas companies are about ready to start their exploration in Elbert County. They just completed seismic activity along the I-70 corridor between Watkins and Byers and are prepared to move their 150-foot rigs as soon as they determine the sweet spots. They are moving south from Weld County. In 1862, President Lincoln gave the

deposited in used wells under ground or it is evaporated. Since there are to be no open pits in Elbert County, the water will not be evaporated. We don't want water that contains toxic chemicals stored underground because of the danger of it
